

Cameron Vale School - Disability Access Plan

2021 - 2024

Overall Aim

The school seeks to remain an inclusive school and provide equality of access and opportunity for all pupils to the extent that reasonable adjustments can be made to the school's premises and procedures. The school aims to ensure that students with disabilities or learning difficulties are not discriminated against or placed at substantial disadvantage in those areas of school life that are normally accessible to the whole pupil body.

The plan seeks to:

Increase the extent to which disabled pupils, including those with SEND can participate in the school curriculum. This covers teaching and learning and the wider curriculum of the school such as participation in after-school clubs, leisure and cultural activities or school visits.

Improve the provision to disabled pupils of information of information which is already in writing for pupils who are not disabled. This covers documentation related to the curriculum, to general school documentation and also information which is normally sent home. Plans will need to adopt a practical approach and take account of the specific disability - details will vary on a case by case basis.

Improve the physical environment of the school in order to increase the extent to which disabled pupils are able to take advantage of education and associated services offered by the school. This includes improvements to the premises and grounds, taking into account the consideration of reasonable adjustment and any restrictions such as may result from as planning consent or listed building/conservation area status.

This plan covers a three-year period. It is reviewed annually by the school and monitored by governance.

Disability Access Plan							
Theme/ Target/ Objective	Actions	Leading	Date	Cost	Success Criteria	Outcomes for Learners	Evaluation/sign off/who
Enabling Participation in the School's Curriculum for All	Train staff on differentiation	MB	November 2021	n/a	Teachers will plan outcomes for all abilities	Every child will understand their targets and how to achieve them	MB
